

Manual Longliner / Coiler

Type 07-16

The unit is made of stainless steel and galvanised iron. The rest is of plastic and bronze.

The unit is equipped with stripper and knife, so the line is coiled direct inn the pot.

The construction is very simple, so only a minimum of maintenance is required.

Removing of the unit is fast and easy.

Specifications:

Sheaves diameter:..... 300 mm.

Weight: 8 kg.
