

New solution for the new Automatic Longline Hauler, type 07-22 & 23-12

Two men

Two men can haul up to 6-7.000 hooks a day, and prepare the Longline at the same time, so that it is ready to set out again.

Three men

Three men can haul up to 10.000 (and more) hooks a day, and prepare the line at the same time, so that it is ready to set out again.

(If you are four men, then the fourth man can help with preparing of the Longline and take care of the fish).
